August 19, 2010

Dear Hiring Executive,

I am interested in exploring the possibility of seeking employment with your organization. Please find my resume enclosed; it will furnish you with the details relevant to my experience, skills, and education. References and any other information you require shall be promptly provided upon your request.

As my resume indicates, I have established a solid work history encompassing a variety of diverse environments. In addition, I maintain excellent active listening skills, while able to communicate with individuals from various backgrounds and experience levels. I have experience in the following, however not limited to: Website and New Media Design, UX / UI Design, Interface Design for Mobile Applications, Pre-Press Design, Animation, Video Editing, Effects Creation, Instruction, and Quality Control. My work ethic is founded on a 'what-ever-it-takes' attitude and diligent persistence to ensure all projects, from concept to completion, are fulfilled to the utmost.

Over the years, I have made significant contributions on behalf of all my employers. If given the opportunity I would like to contribute to your organization by utilizing my skills to further your business success. Should your establishment need a self-motivated individual please call me to arrange an interview to further discuss how I would benefit your company.

Thank you for this initial consideration. I am looking forward to speaking with you in the near future.

Sincerely,

Ben Sebby
New Media & Motion Graphics Designer

OBJECTIVE

To obtain a position offering new challenges with a company that will utilize my abilities associated with Visual Communications, Motion Graphics, Interactive and New Media Design.

EMPLOYMENT HISTORY

Tactel US Inc. | San Diego, CA

12/7/2009 — 8/20/2010

Sr. Visual Designer

- UI Design Lead of original Mobile Applications for clients including Sony Ericsson, Qualcomm, BlueAnt Wireless, and Intel.
- Worked closely with developers to Design and implement UI concepts into either application prototypes, fully functional demo apps, as well as market ready mobile applications.
- Consulted directly with clients to ascertain their expectations of the project, receive their interest and feedback for the design direction, in addition to offering design suggestions for a successful User Experience.
- Contributed towards the R&D efforts of Next Generation application development for Mobile and Web technologies – including Augmented Reality, HTML5, and WebGL.

TC Digital Games L.L.C. / 4Kids Entertainment | San Diego, CA

10/20/2008 — 7/31/2009

Web Developer / Designer

- Provided Prototype Development, Interface Design Updates, and Front-End UI design / development for the premiere release of company's game website ChaoticGame.com (version 2.0).
- Made team contributions towards the maintenances, and updates -- wherein patch releases to ChaoticGame.com were made through a custom developed Content Management System (CMS).
- Designed and Developed the Front-End UI for the CMS associated with ChaoticGame.com.

SiteLab Interactive Inc. | La Jolla, CA

4/14/2008 — 9/5/2008

Sr. Multimedia Designer

- Designed and developed website compositions, flash and video banner ads, as well as web based flash applications for online marketing, and/or client website integration.
- Expanded on the development of existing projects, for clients ranging from UPS and LA Fitness, to Caldera Spas, and the National Polytechnic College of Science.
- Updated, maintained, and made revisions to Flash applications for client websites and/or standalone DVD applications as they may apply.

Einstein Industries Inc. | San Diego, CA

1/9/2003 — 4/9/2008

New Media Web Designer / Sr. Flash Designer

- Worked in a team environment, developing websites from concept to completion for national and international clients alike.
- Development of custom Flash animation, video effects, and interactive media for seamless integration with client's websites.
- Design and integration of new media products / services including a Flash-based RSS News Feed, Video Media Center, and morphing before and after photo galleries for medical and dental website clientele.
